

2-Substituted pyrimidines

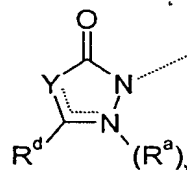

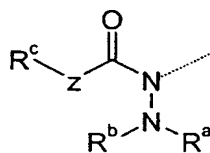

Abstract

5 The present invention relates to pyrimidines of the formula I

in which the index n and the substituents L, R<sup>1</sup> – R<sup>3</sup> are as defined in the description and

10 R<sup>4</sup> corresponds to one of the formulae

15 and to processes and intermediates for preparing these compounds, to compositions comprising them and to their use for controlling phytopathogenic harmful fungi.
